(a) Includes figures for the Eden Canal which was amalgamated with the Damodar Canal system with effect from the year 1933-34.

3. **General.**—The total capital expenditure of the Department of Communications and Works, Irrigation Branch, during 1936-37 was Rs. 7,96,062 after deducting receipts and recoveries on capital account amounting to Rs. 9,192, as against Rs. 5,26,020 in the previous year. The major portion of this capital outlay was on the Damodar Canal project, only about Rs. 3,100 being spent on dredging the Bidyadhari river.

The construction of the Damodar Canal, which was started in 1926-27, was completed during the year under review. The project has been designed to irrigate about 200,000 acres of land, mostly for cultivation of paddy in the districts of Burdwan and Hooghly. The revenue account of the canal was opened from the 1st April 1933, and the construction estimate closed from the 30th September 1935. The flood of August 1935, which was the highest known since 1913, caused considerable and serious damage to the main weir of the canal called the Anderson Weir, necessitating the reconditioning of the weir and heavy special repairs to protective works downstream of all structures in the canal system. An estimate amounting to Rs. 12,98,208 was sanctioned and the special repair works were taken up during the cold weather of 1935-36 and were nearly completed during the year under review.

The rainfall in the area served by the Damodar Canal system was not well distributed during the year under review with the result that there was a great demand for canal water at times especially during the months of June and October. The supply of canal water was adequate and ensured a bumper crop in the areas. The total area actually irrigated was 133,101 acres as compared with 132,278 acres in the previous year. As in the previous year crop cutting experiments were carried out in several mauzas and it was established that the outturn of crops was very satisfactory.

The Bengal Development Act XVI of 1935 which provides for the development of lands in Bengal and imposes a levy in respect of increased profits resulting from improvement works constructed by Government came into force from 23rd January 1936. This enactment was the outcome of the suggestion in the Irrigation Committee's Report, 1930, that the cost of schemes financed by the Government out of loan funds should be met by means of a cess levied at a flat rate in the total area benefited. The Damodar Canal project was brought under the operation of the Bengal Development Act during the year under review.

The newly constructed Bakreswar Irrigation Canal in the Birbhum district irrigated 5,621 acres of land as against 6,489 acres in the previous year. The reduction in the area irrigated by this canal was due to non-execution of leases as a result of ample rainfall.

The project for the construction of the Grand Trunk Canal to provide a shorter inland steamer route from Calcutta to Eastern Bengal and Assam was held in abeyance and the capital expenditure already incurred was written off with the sanction of the Government of India. An expenditure of Rs. 7,311 charged to revenues was, however, incurred on the upkeep of buildings on the acquired land and on petty establishment and tools and plant, with a return of Rs. 9,530 on account of rent, etc.

Experiments with the operation of the locks and sluices on the Lower Kumar river were made with a view to reducing siltation in the river.

The expenditure on revenue account during the year amounted to Rs. 25,62,039 of which Rs. 5,47,626 was spent on irrigation works proper, the principal items being the Midnapore, Bakreswar, Damodar and Eden Canals and the contour survey in Central and Western Bengal. The expenditure on the Midnapore Canal was Rs. 1,27,315 which included Rs. 40,139 for maintenance and repairs and Rs. 86,775 for overhead charges. The expenditure on the Bakreswar Canal was Rs. 13,753 while that on the Damodar Canal including the Eden Canal amounted to Rs. 2,75,529. The administrative approval of Government was accorded to contour surveys of certain areas in Central and Western Bengal being undertaken at an estimated cost of Rs. 1,46,000 as it is expected that from such surveys, projects and schemes will emerge in the near future which will be remunerative and suitable for adoption under the Bengal Development Act. The survey for which a programme of three years was drawn up commenced from the cold season of 1936 and a total sum of Rs. 91,257 including Rs. 63,071 during the year under review, was spent. The rest

of the expenditure on revenue account was on navigation, embankment and drainage works. The expenditure on navigation was mainly for (1) upkeep of the five suction dredgers, (2) maintenance of the Hijili Tidal Canal, (3) maintenance of the existing steamer and boat routes from Calcutta to Eastern Bengal and Assam including the reconstruction of the bridges over the Calcutta Canals and Tolly's Nala to the cost of which the Calcutta Improvement Trust and the Calcutta Corporation contributed in certain cases and (4) conservancy of some of the principal navigable rivers of the province such as the Ganges, the Dhalleswari and the Buriganga. The expenditure on the Hijili Tidal Canal, the Calcutta and Eastern Canals, the Sunderbans Steamer Route and the Madaripur Bil Route was Rs. 41,523 Rs. 4,34,494, Rs. 56,772 and Rs. 1,68,485 respectively as compared with Rs. 1,32,212, Rs. 5,55,017, Rs. 47,188 and Rs. 1,82,085 respectively in the previous year. There was a marked decrease in the working expenses of the principal navigable canals, except the Sundarbans Steamer Route. The cost of the upkeep of the dredgers amounted to Rs. 4,39,972 as against Rs. 92,915 in the previous year. The adjustment of the loss of Rs. 2,08,777 on stock due to revaluation of the rates, etc., of the spare parts of the dredgers by *per contra* credit to their stock account and the special repairs to the dredger "Ronaldshay" in preparation for the work of dredging the new Storm Water Channel for the Calcutta Corporation account for the increased expenditure during the year under review. Out of the 5 suction dredgers, 3 were laid up throughout the year; the remaining dredgers "Alexandra" and "Foyers" were employed on dredging shoals in the Madaripur Bil Route and the Lower Kumar river during the months of October and November.

The total revenue receipts and expenses during the year were Rs. 15,18,194 and Rs. 25,62,039 respectively as against Rs. 13,78,369 and Rs. 25,94,249 in the previous year. The appreciable increase of about Rs. 1,40,000 of revenue was due mainly to the increased collection of water rates in the Midnapore Canal area and tollage in the Sundarbans Steamer Route and the Madaripur Bil Route. The financial results of the navigation canals were on the whole more favourable than in the previous year, as the receipts were on the increase and the working expenses were less.

Owing to financial stringency it was not possible to undertake any of the major schemes already administratively approved and the policy of Government had still perforce been restricted to smaller schemes of local benefit. The Ghuznavi Cut, a channel connecting the Mathabhanga river with the Nabaganga near Meherpur constructed in 1933 by the District Board of Nadia with a contribution from Government and the Bejoy Cut to flush the Bhairab Kobadak river by means of a junction cut from the Mathabhanga at Joynagar carried out by the District Board of Nadia in 1935 are instances of schemes of this nature. Both these cuts worked very satisfactorily during the year.

An amount of Rs. 3,03,000 was allotted to this department out of the Government of India grant of about Rs. 16,00,000 to this province for rural upliftment. The amount was meant for executing small drainage and flushing schemes to improve rural conditions. Accordingly schemes of this nature were selected in some of the districts of Bengal in consultation with the district authorities and district boards in 1935-36. Many of such schemes have been completed and the remainder are in progress.

The free flushing of the malaria-stricken areas in the Narayangarh, Pingla and Kola-Panskura areas of the Midnapore district with the water of the Midnapore Canal was continued. The area actually flushed was 2,930 acres including tanks, dobas, basties and paddy fields. The result was on the whole satisfactory.

Flushing of the Gobra Nalla by the water of the Kalkali river through the Gobra Cut was very satisfactory. Most of the water hyacinth was passed down by the strong current and this resulted in considerably improving the sanitary condition of the people. Actually an area of 1,700 acres was flushed. Flushing by the Uttampur Cut connecting Jalangi river at Uttampur with the Bhairab river at Natua was satisfactory. The Bhairab river was practically cleared of water hyacinth.

The department maintained about 1,247 miles of embankments during the year. The policy of gradually abandoning those embankments which by experience have been found to be injurious

to the country by obstructing the free discharge of flood water was continued and a length of about 18 miles of existing embankments was abandoned. The total amount spent on maintenance of embankments and drainage works, such as Magrahat drainage works, Rajapur drainage works, etc., was Rs. 6,42,313 against Rs. 9,00,895 in the previous year.

The department has also to deal with the protection of towns from river erosion. During the year under review, the cost of the protective measures against the erosion of the river Dharla which threatens the existence of the subdivisional town of Kurigram, amounted to Rs. 12,844. The work in connection with the brick mattress at Nawabganj in the Rajshahi district was undertaken and completed during the year at a cost of Rs. 9,769. Periodical observations were made of the erosion at Noakhali and Chandpur.

The department also undertakes surveys and investigations with a view to examining the feasibility of working out schemes for irrigation and drainage purposes. It also conducts discharge observations and collects hydraulic data of all important rivers. Apart from the contour survey of Central and Western Bengal already mentioned, many important surveys and investigations were carried out during the year of which the following were the chief :—

(1) Observing hydraulic conditions in the Malda district, (2) taking gauge readings and discharge observations of important rivers of North Bengal, (3) collecting hydraulic data for improving the rivers Bhagirathi, Kumar, Jalangi and Nabaganga, (4) taking borings in connectiin with the Darakeswar reservoir project, (5) examining the bed of the river More at the site of the Messanjore reservoir dam, (6) survey in connection with a proposed embankment at Bararchar, (7) observation of the spill condition of the river Jamuna from Jagannathganj to Patal and (8) survey in connection with some drainage projects in the Gopalganj subdivision.

4. **The Damodar Canal project.** – The total capital expenditure (direct and indirect) to the end of the year 1936-37 was Rs. 1,19,05,919 as against the revised estimate of Rs. 78,14,981 sanctioned by the provincial Government in 1925. A second revised estimate which was prepared by the Chief Engineer showing up-to-date financial results is considered unnecessary at this stage and it has been decided to deal with the excess expenditure on the project in the completion report now under preparation. Receipts and expenditure inclusive of the Eden Canal during the year amounted to Rs. 4,92,820 and Rs. 2,75,[illegible] respectively as against Rs. 4,74,182 and Rs. 2,15,993 in the previous year. The result was a net revenue of Rs. 2,17,291 against Rs. 2,58,189 in the previous year.

5. **The Bakreswar Irrigation Scheme.**—The construction work in connection with the scheme was started in 1927. There was no capital outlay during the year and the total capital expenditure (direct and indirect) to the end of the year amounted to Rs. 7,13,875 against the sanctioned estimate of Rs. 4,90,596. The completion report is under examination. The gross revenue and working expenses during the year were Rs. 18,810 and Rs. 13,753 respectively, the result being a net revenue of Rs. 5,057 as against Rs. 3,122 in the previous year.

6. **The Midnapore Canal.**—The canal consists of two weirs at Midnapore and Panskura, 65¼ miles of main and branch canals used both for irrigation and navigation purposes and 284·87 miles of distributaries and village channels. No capital expenditure was incurred on the canal during the year. The gross receipts and working expenses were Rs. 1,25,832 and Rs. 1,27,315 respectively as against Rs. 61,785 and Rs. 1,31,834 in the previous year. The result was a deficit of Rs. 1,483 against that of Rs. 70,049 in the previous year.

7. **The Grand Trunk Canal project.**—As alluded to in paragraph 3 above the project was held in abeyance and the entire capital expenditure amounting to Rs. 13,78,862 incurred on it to the end of the year 1935-36 was written off from the capital accounts without any financial adjustment with the sanction of the Government of India. The project now comes under the category of works for which neither capital nor revenue accounts are kept.

8. **The Hijili Tidal Canal.**—This khal with the Terapakhia Pass Khal Palaboni khal and the khal leading to the Gewankhali lock entrance constitutes a navigation canal 49¾ miles in length No capital expenditure was incurred on the canal during the year. The gross receipts and working expenses amounted to Rs. 56,629 and Rs. 41,523 respectively as against Rs. 63,900 and Rs. 1,32,212 in the previous year, the result being a net revenue of Rs. 15,106 as against the deficit of Rs. 68,312 in the previous year.

The result was a deficit of Rs. 59,333 against that of Rs. 2,27,492 in the previous year.

10. **The Sundarbans Steamer Route.**—This route is about 350 miles long There was no capital expenditure on it during the year. The gross revenue and working expenses amounted to Rs. 77,305 and Rs. 56,772 as against Rs. 63,312 and Rs. 47,188 in the previous year, resulting in a net revenue of Rs. 20,533 as against the net revenue of Rs. 16,124 in the preceding year.

11. **The Madaripur Bil Route.**—The route connects the Madhumati and Kumar rivers in the Faridpur district

and is about 36 miles in length. There was no capital expenditure on it during the year. The gross revenue and working expenses were Rs. 1,75,221 and Rs. 1,68,485 respectively as against Rs. 1,54,890 and Rs. 1,82,085 in the previous year; the result was a net revenue of Rs. 6,736 against a deficit of Rs. 27,195 in the previous year.

12. **Dredgers.**—As already stated in paragraph 3, of the five suction dredgers, the "Alexandra" and the "Foyers" were employed for 26 and 15 days respectively. The hire earned by the "Alexandra" amounted to Rs. 7,852 of which Rs. 2,938 was credited to the capital account and the balance, viz, Rs. 4,914 to the revenue account. The amount of Rs. 12,311 earned by the "Foyers" as hire was credited to the revenue account of the dredger. The other three dredgers "Ronaldshay", "Cowley" and "Burdwan" remained idle throughout the year. But the "Ronaldshay" earned as hire Rs. 1,960 for the use of certain of her pontoons. Out of this Rs. 756 was credited to her capital account and Rs. 1,204 to the revenue account. The "Cowley" also earned similarly Rs. 392 as hire, of which Rs. 140 was credited to her capital account and Rs. 252 to the revenue account.

Taking all the dredgers together, the revenue receipts amounted to Rs. 21,555 while their working expenses were Rs. 4,39,972 as against Rs. 92,915 in the preceding year. The reason for the large increase in the working expense in comparison with the previous year has been explained in paragraph 3 above.

13. **Minor Irrigation, Navigation, Embankment and Drainage works for which neither Capital nor Revenue accounts are kept.**—These include the Amjore Weir, the Salbundh Weir, the Orissa Coast Canal, the Nadia rivers, the Magrahat drainage scheme, Government embankments, the surveys and other works enumerated in the list at the end of parapragh 3 above. Total receipts from these works amounted to Rs. 1,74,858, while their working expenses were Rs. 10,04,196 as against Rs. 12,24,583 in the preceding year. The decrease in the working expenses was due to a fall in the expenses incurred on the embankments.

14. **River Training works.**—Training works were carried out in the rivers Dhalleswari and Buriganga in order to mtaintain a navigable depth of water during the low water season and to ensure a supply of good drinking water to the city of Dacca. The work was carried out through the agency of the Joint Steamer Companies with a Government subsidy of Rs. 17,500.
